

3 AMERICANS IN JAIL AT ACAPULCO

Officers of Ship Destroyed by
Fire, Threatened with Death
By Mexicans.

(By Review Leased Wire.)
MAZATLAN, Mex., May 10. (by radio to San Diego)—Three Americans and one Chilean, officers of the American power schooner General Mariscal, of San Francisco, which was destroyed by fire in the harbor of Acapulco on April 12, have been placed under arrest by the Mexican port officials at that place in connection with the loss of the vessel.

Under orders of General Mariscal, of the state of Guerrero, all four are to be brought to trial and if found guilty, it is said, they will be executed.

The plight of the schooner's officers was made known here today on advices from Acapulco, which did not state when the prisoners were to be brought to trial.

It was learned that the four men, Alfred Brown, purser, Will Wig, first mate, C. E. Vogette, chief engineer, and Frank Horn, assistant engineer, are confined under comfortable conditions in the Acapulco municipal palace and have been furnished with counsel by the Mexican government.

Following the destruction of the schooner the entire crew was arrested by the port officials but with the exception of the four officers all were later released and are now on their way to San Pedro, California.

It is not known here just what grounds Acapulco officials have for believing that the loss of the General Mariscal was caused by incendiary fire.

Conditions at the port of Acapulco are quiet, according to reports here, but Zapatistas are said to be active in the immediate vicinity.

The U. S. S. Denver is at Acapulco on patrol duty.

CYMBEL'S SINKING NO CASE FOR AMERICA.

LONDON, May 10.—In official circles here it is not expected that the sinking of the White Star liner Cymbel will cause a breach between Germany and the United States, while, according to the admiralty, the Cymbel was an ordinary freighter, on which the government was sending freight in common private shippers, the fact that no Americans were on board and the doubtful status of the ship create a belief that Washington is hardly to make an issue of the sinking. It is known that American officials here are making only the usual inquiries.

CHICAGO, May 10.—J. Winchester Holman, publisher of the Mining World, died today at his home here. He had been ill for several weeks with heart disease. Mr. Holman was prominent in mining circles and the trade journal field.

WAR SUMMARY

(By Review Leased Wire)

Comparative calm prevails on the western front in France, notably in the region of Verdun, which for weeks has been the theatre of the most sanguinary conflicts of the war. The French, however, have been able to capture portions of a German trench on the west slopes of Le Mort Homme and to resist successfully a German attack near Hill No. 287, between the wood of Malancourt and Le Mort Homme.

Late reports show that the Russians have been repulsed in an attack on the Germans south of Garbunovka, suffering heavy casualties. On the Austro-Italian front the usual bombardments and isolated infantry attacks still are in progress.

Constantinople announces victories for the Turks against the Russians in northern Asia Minor and northwest of Mosul, and the defeat of the Russians with heavy losses and the capture of some prisoners near Mount Batbil.

U. S. SOLDIERS EMPLOY MEXICANS AS FREIGHTERS

MARATHON, Tex., May 10.—Because the garrison here has only eight men, Captain Chambers, quartermaster was compelled to engage Mexican freighters today to forward forage to Colonel Sibley's command now near the Mexican border, at Boquillas. Purchases of fire brick for bread for the expeditionary forces were made today by Captain Chambers. Work of erection will go forward at once. Nine auto trucks for use between here and Boquillas are expected Saturday.

Amount of anticipated grain consumption is given in Russian official statistics as follows: Seeding for next year, 11,513,200 tons; feeding 127,500,000 people and cattle and fowls at 792 pounds each, 50,493,600 tons; reserve supply, 23,746,600 tons.

PAY URGED FOR MEN AT TRAINING CAMP

Congress Advocates Soldier
Pay for Civilian Military
Students, as Feature of Big-
ger Army Bill.

(By Review Leased Wire.)

WASHINGTON, May 10.—Conferees on the army reorganization bill in an all day session today, failed to reach a final agreement on disputed phases of the measure, but both Senate and House members said tonight there was a general feeling they would get together after several more days of discussion.

All were agreed that it was useless to talk further for a standing army of 250,000 men or to plead any longer for the Senate's proposed federal volunteer reserve army. Much of the day was spent in discussing the probable agreement on the regular army and the general understanding seemed to be that the peace strength would be fixed approximately at 180,000 men.

Champions of the volunteer reserve who are reluctantly yielding to its rejection by the House are urging perfection of the training camp provisions of the House bill and hope it may be amended along the lines proposed in an amendment offered in the Senate by Senator Lodge.

This would provide for pay at the rate now given the regular army, for citizens who enlist in instruction camps during the periods they are in training. With such a provision it is argued, young men who could not otherwise afford to devote a month or more each year would be given an opportunity to attend the instruction camps.

CHARGES MADE AGAINST WELCH'S SOBRIETY.

CHICAGO, May 10.—Word was received here tonight that the Wisconsin boxing commission has summoned Freddie Welsh to appear before it on Monday to explain his conduct during the recent fight at Milwaukee with Ever Hammer. According to the report the light weight champion stimulated freely between rounds of that contest. Welsh's manager denies that the champion used alcoholic stimulants and asserts that the charge made to the boxing commission is prompted by ill-will.

BERLIN FACES MEAT FAMINE; BUTCHERS QUIT.

LONDON, May 10.—A Copenhagen dispatch to the Exchange Telegraph company says that the police of Berlin searched the shops and dwellings of the butchers today for hidden stocks of meat. The result showed

that the supply of meat in Berlin is sufficient for only a few days. For this reason the food question overshadowed all other subjects.

All the butcher shops including Wertheim's large meat market, have been closed. The best quality of meat now costs fourteen marks per kilo (2.20 pounds).
